

(a) Standard Reconstruction vs. Generation Pipelines

➤ Standard Reconstruction

➤ Generation

(b) Latent Distribution Mismatch and Generative Trajectory

Encoder Latents

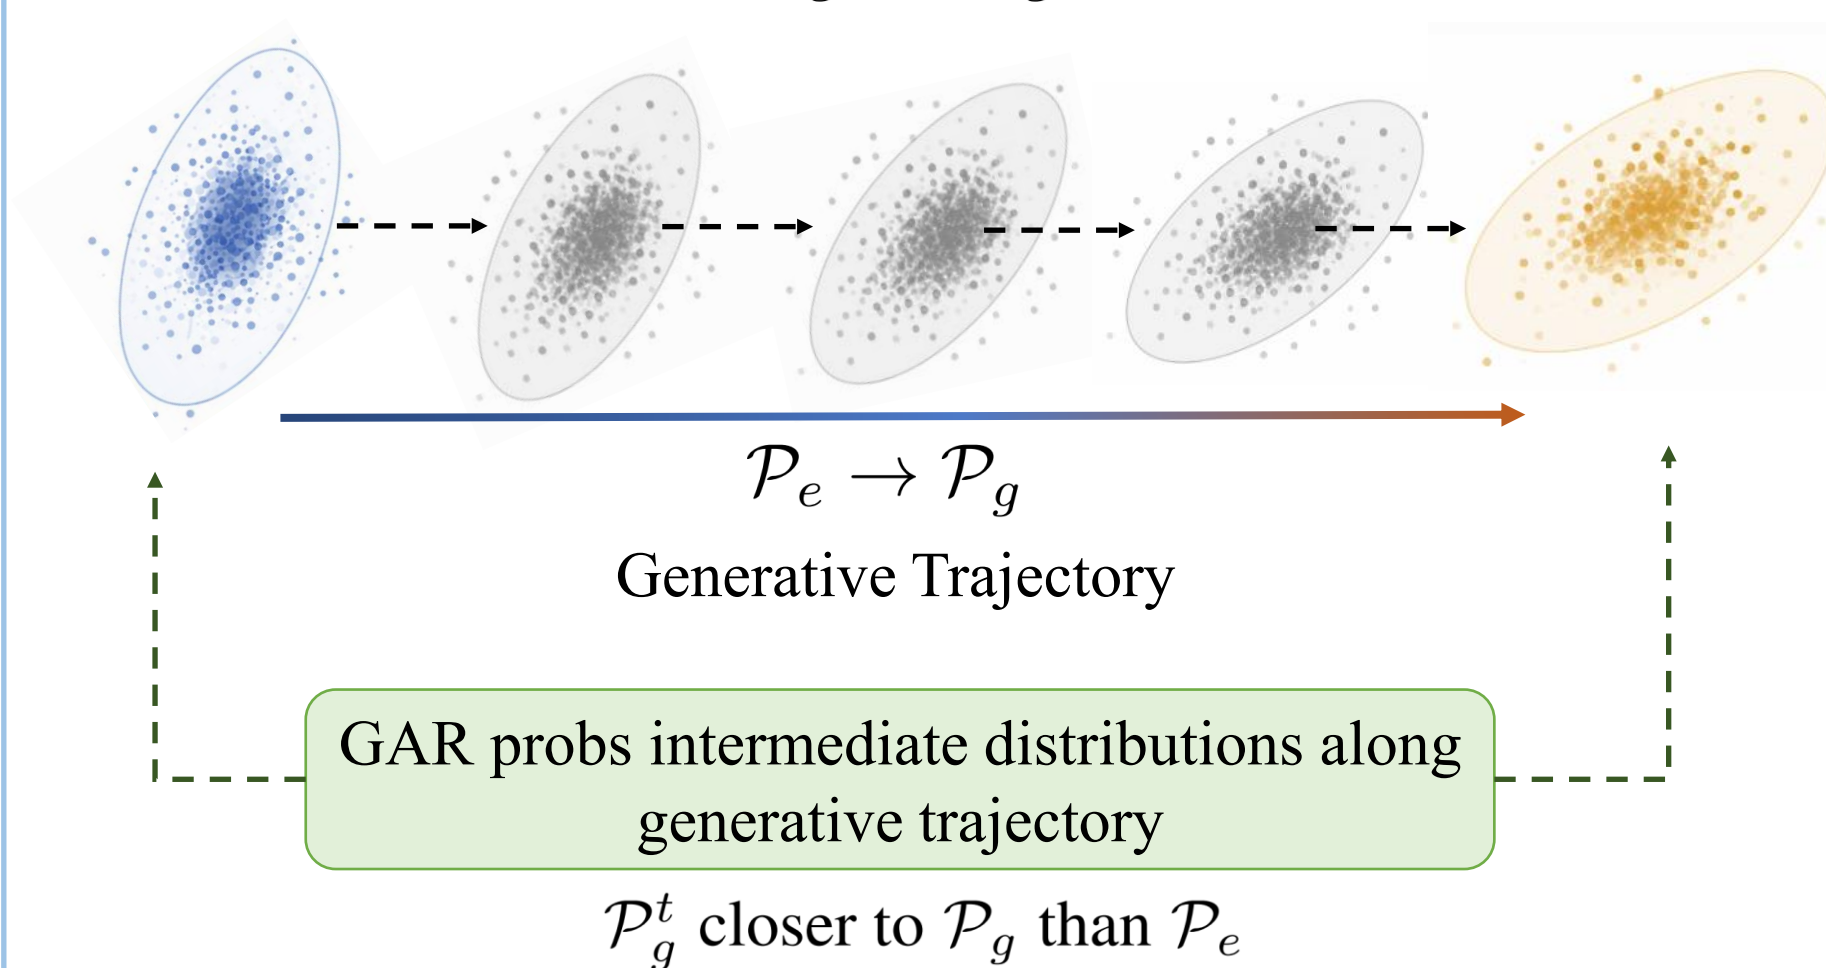

$$z_e \sim \mathcal{P}_e$$

Intermediate Distribution

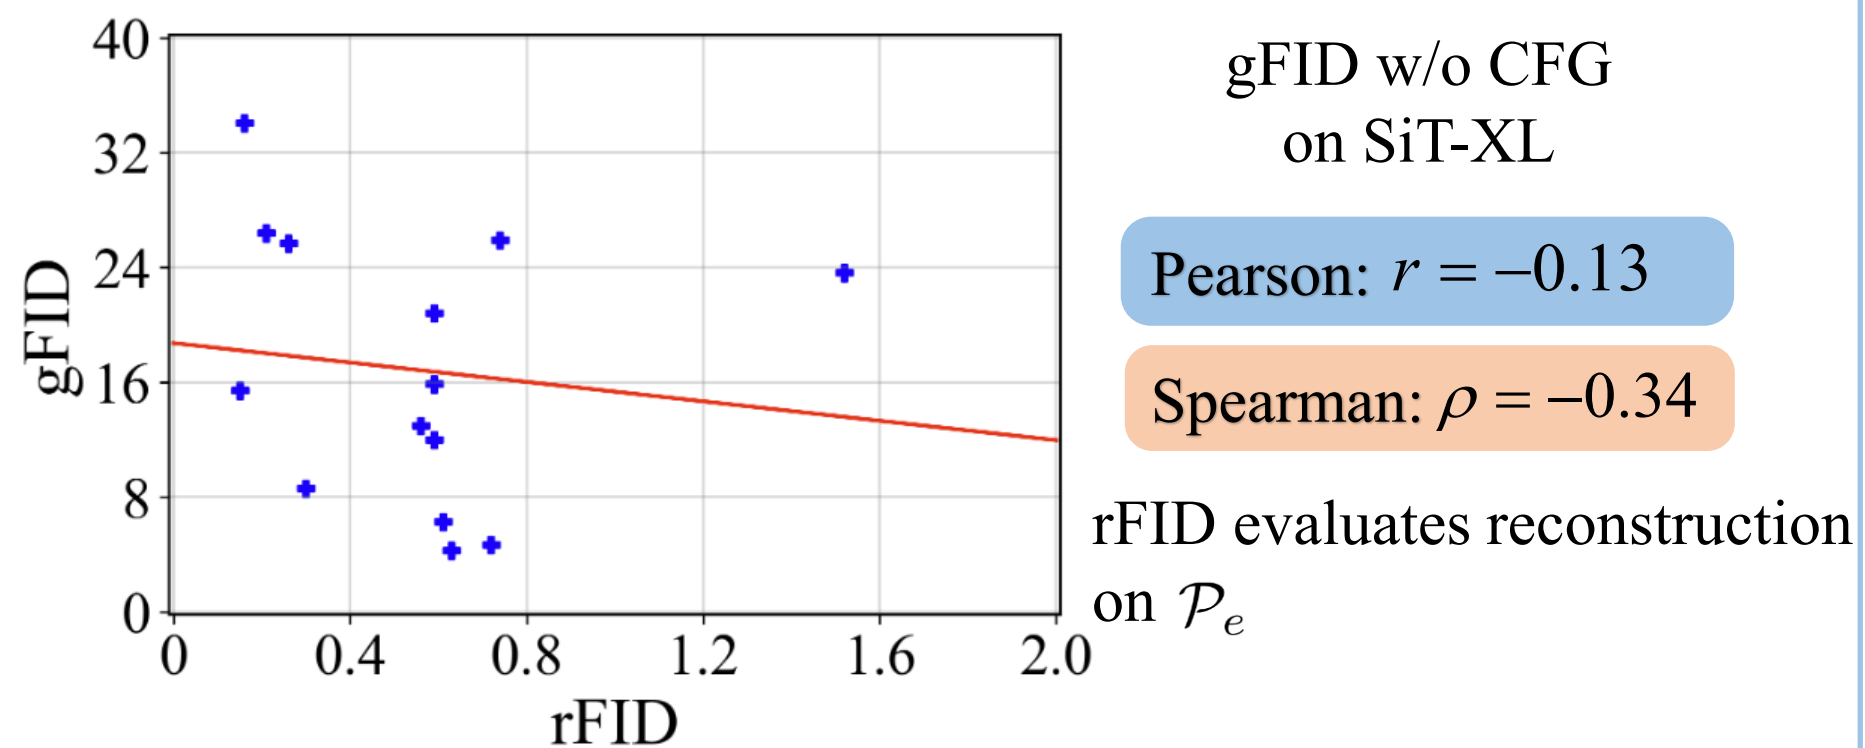

$$z_g^t \sim \mathcal{P}_g^t$$

Generative Latents

$$z_g \sim \mathcal{P}_g$$

(c) rFID Weakly Correlates with gFID

(d) GAR-FID Strongly Correlates with gFID
